Table des matières

Makeblock is a robotic making company, located in Shenzhen China.

Makeblock is an aluminum extrusion based construct platform for you to bring your ideas into success. We are aiming to help you to realize your dream —— building robots, machines, toys that hide in your mind.

Makeblock was founded in May, 2011 by engineer Jasen. After more than one year on designing and perfecting the platform, you have nearly 100 kinds of modules to select.

In March, 2012, Makeblock joined the Accelerator Program of HAXLR8R, and reported by Forbes during the exhibition in San Francisco.
